Under the *No Child Left Behind* Act, faith-based and community organizations, non-profit entities, for-profit entities, local education agencies, public schools, public charter schools, private schools, and public or private institutions of higher education are eligible to receive federal funds to provide extra academic help to students from low-income families who attend Title I schools that are in their second year of school improvement, corrective action or restructuring. These supplemental educational services ("SES") are additional academic instruction designed to increase the academic achievement of students attending schools in need of improvement. Services must be provided outside of the regular school day and may include academic assistance such as tutoring, remediation and other educational interventions.

In this workshop you will learn how your organization can become an approved SES provider in Michigan and receive funds for tutoring eligible children in math and language arts.

Information will also be given about *No Child Left Behind*, the 21<sup>st</sup> Century Community Learning Centers program (funding for afterschool programs), grant writing, grants administration and capacity building. **Lunch will not be provided. There will be a break at noon for lunch on your own.**
